

BLEND LEARNING NZ

Blending education theory into practice

TEACHER ONLY DAY

What we'll cover

A practical and inspiring day to unpack the refreshed Science Curriculum and plan for success in your school.

1 Welcome & The Big Picture

- Clarify the purpose and vision of the refreshed Science Curriculum.
- Explore what this means for our learners and our school.

2 What's Changed?

- Unpack the key changes, structure and intent of the new curriculum.
- Identify opportunities and implications for teaching and learning.

3 Understanding the Structure

- Explore the four phases, strands and learning areas.
- Understand the separation of Knowledge and Practices and how they work together.

4 Knowledge & Practices in Action

- Look at year-by-year progressions and examples.
- See what effective science learning looks like in the classroom.

5 Practical Science Teaching

- Experience hands-on investigations.
- Explore strategies to build scientific inquiry, thinking and evidence-based learning.

6 Planning for Implementation

- Audit and map your current programme.
- Identify priorities, gaps and opportunities.

7 Local Contexts & Authentic Learning

- Explore ways to use local contexts, mātauranga Māori and real-world contexts to engage learners.
- Strengthen relevance and connection in our science programme.

8 Action Planning & Next Steps

- Develop a clear action plan for implementation.
- Agree on priorities and next steps to move forward with confidence.

OUR SCIENCE FACILITATORS

Our facilitators are experts in science and active classroom teachers. We understand the realities of teaching and bring deep content knowledge, practical strategies and a passion for engaging learners in science.

- ✓ Experts in science content and pedagogy
- ✓ Experienced facilitators and teachers
- ✓ Active in the classroom
- ✓ Practical, relatable and inspiring

Ready to strengthen science teaching in your school?

Let's design a Teacher Only Day that meets the needs of your staff and learners.
